Computer Science Student looking for a summer internship experience. Proven success in previous internship where I was responsible for developing multiple internal tools used on a daily basis by members of the cyber practice. Proficient in Python, Java, HTML, CSS, SQL, and Git. Will be proficient in C by Summer 2023.

EDUCATION

Purdue University

Bachelor of Science in Computer Science

West Lafayette, IN

August 2022–December 2025

Relevant Coursework:

- Completed: Object-Oriented Programming, Calculus 1 and 2, Multivariable Calculus
- Spring 2023: Foundations of Computer Science, Programming in C, Linear Algebra, Python Programming

PROFESSIONAL EXPERIENCE

Prescient: Global Risk Management and Intelligence Services,

Software Intern

Chicago, IL

September 2021–August 2022

- Developed and deployed tools to the company’s internal Flask server, which auto-run reports for the cyber monitoring team
 - Used Python, SQL, HTML, CSS, and many Python libraries
- Used web scraping techniques to obtain information about data breaches from multiple sources
- Developed a tool to match data breach information to existing breached credential records
- Developed a tool to parse PDFs to add records to the company’s breached credential database
- Worked closely with the managing director of the cyber practice as well as the rest of the cyber team in order to provide increased functionality for many internal resources

Trinity Hinsdale Church,

Sound Manager

Hinsdale, IL

August 2020–July 2022

- Responsible for setting up, running, and cleaning up the sound system for a mid-sized church
- Required to be consistently on time and perform responsibilities without direct oversight

Mathnasium Naperville Uptown,

Math Tutor

Naperville, IL

September 2020–September 2021

- Taught students from 2nd to 12th grade math concepts using Mathnasium methods
- Administered placement tests to students following strict Mathnasium requirements

ADDITIONAL SKILLS

- Proficient in Python, Java, SQL, HTML, CSS, Git
- Proficient in many Python libraries: Flask, Django, Pandas, Requests, BeautifulSoup, APScheduler, Selenium
